

**CUURENT STATUS AND FUTURE NEED OF EMERGING
TECHNOLOGIES FOR ENHANCING USER SATISFACTION IN ODISHA
STATE UNIVERSITY LIBRARIES**

**DISSERTATION SUBMITTED FOR PARTIAL FULFILLMENT OF THE
DEGREE OF**

MASTER IN LIBRARY AND INFORMATION SCIENCE

GUIDED BY

DR. BIKRAM KISHORE BEURA

ASSISTANT PROFESSOR

DEPARTMENT OF LIB. & INF. SCIENCE

SUBMITTED BY

RASMI RANJAN MOHAPATRA

ROLL NO: 11S23LI03

MLIS 4TH SEMESTER

P.G. DEPARTMENT OF LIBRARY AND INFORMATIONSCIENCE

SAMBALPUR UNIVERSITY,

JYOTI VIHAR, BURLA-768019, ODISHA

2025

CERTIFICATE

This is to certify that the work in this dissertation entitled **Current Status and Future Need of Emerging Technologies for Enhancing User Satisfaction in Odisha State University Libraries** submitted in partial fulfilment of the requirement of the degree of Master in Library Information Science (2023-2025) from Sambalpur University by Rasmi Ranjan Mohapatra is the record of research work carried out by the candidate with all sincerity and diligence under my guidance. Hence, I forwarded and recommended that, this dissertation deals with original work and is worthy of examination.

Acknowledgements

It is my proud privilege to take this opportunity to express my deep sense of gratitude to my respected guide, Dr. Bikram Kishore Beura, P.G. Department of Library and Information Science, Sambalpur University, Jyoti Vihar, for his invaluable guidance in helping me complete this project on time. His keen interest, sincere guidance, continuous encouragement, and meticulous supervision of this dissertation have played a pivotal role in shaping this work. I am highly obliged to my esteemed teachers, Prof. Bulu Maharana and Dr. Sabitri Majhi, as well as the research scholars, for their guidance and support during the course of this dissertation. I extend my heartfelt thanks to my parents and family for their unwavering support, blessings, advice, and inspiration. I am also deeply thankful to all my friends for their encouragement and assistance. I owe my sincere gratitude to everyone who extended their help and cooperation. Without their support, this dissertation would have remained a distant dream. I truly appreciate the cooperation received from all concerned.

RASMI RANJAN MOHAPATRA

Abstract

This study investigates the current implementation and future need of emerging technologies in university libraries across Odisha, India, with a focus on enhancing user satisfaction. As academic expectations evolve, libraries are under increasing pressure to integrate advanced technologies such as Artificial Intelligence (AI), Internet of Things (IoT), Blockchain, Big Data, RFID, and Library Automation Systems to deliver efficient, user-centric services.

The research employed a quantitative approach through structured questionnaires distributed among postgraduate students from four state universities: Utkal University, Sambalpur University, Berhampur University, and Gangadhar Meher University. The data collected via Google Forms was analyzed using Microsoft Excel and presented through charts and tables.

Findings reveal that while some technologies—such as OPAC, RFID check-in/check-out, and access to e-resources—are moderately adopted, advanced solutions like AI-driven services, Blockchain applications, and AR/VR tools remain limited. Key barriers identified include lack of infrastructure, insufficient technical support, poor internet connectivity, and low digital awareness among users. Nevertheless, respondents showed a strong preference for future adoption of AI, IoT, mobile applications, and automation systems.

The study concludes that for university libraries in Odisha to evolve into modern knowledge hubs, a strategic focus on digital infrastructure, user training, and policy support is essential. The insights provided aim to assist academic policymakers, librarians, and technologists in making informed decisions to bridge the technological gap and enhance library user experience.

Chapter1: Introduction

1-7

1.1 Introduction

1.2 Background of the Study

1.3 Statement of the problem

1.4 Need of the Study

1.5 Objectives of the Study

1.6 Scope of The Study

1.7 Research Methodology

1.8 Sheme of Work

Chapter 2: Review of Literature

8-13

Review related literature

Chapter -3:Overview of Emerging Technologies in Libraries

14-25

3.1Artificial Intelligence (AI) in Libraries

3.2 Internet of Things (IOT)

3.3 Block chain

3.4 Library Automation System

3.5 Mobile Technologies in Libraries

3.6 Big Data in Libraries

3.7 RFID In Libraries

Chapter -4: Profile of Selected University Libraries in Odisha 27-33

4.1 Introduction

4.2 Selected University

4.3 Profile of the University Libraries :

4.3.1 Profile of Sambalpur University Library:

4.3.2 Profile of Utkal University Library

4.3.3 Profile of Berhampur University Library

4.3.4 Profile of Gangadhar Meher University Library

Chapter -5: Data Analysis and Interpretation 34-53

5.1 Profile of Respondents

5.1.1 University affiliation

5.1.2 Gender

5.1.3 Departments of Respondents

5.1.4 Semester of study

5.1.5 Frequency of library visit

5.1.6 Purpose of study

5.1.7 Digital Library Services

5.1.8 Iot based Services

5.1.9 Rfid based services

5.1.10 Library automation system and services

5.1.11 Ai based Services

5.1.12 Library bookmark app

5.1.13 Augmented reality

5.1.14 Blockchain technology services

5.1.15 Big data and data visualization services

5.1.16 Library's social media page

5.1.17 Barriers facing while using emerging technology

5.1.18 Challenges

5.1.19 Recommendation of emerging technology in future

5.1.20 Improvements through technologies

Chapter-6: Findings, Conclusions and Suggestions

54-59

6.1 Introduction

6.2 Major findings of the study

6.3 Suggestion

6.4 Conclusion
